

RECOMMENDATION LETTER

To whom it may concern,

I have had the privilege of working with Ksenia in various capacities since 2015. She has been my guide into the world of Montessori method, humanistic education, and nonviolent communication. I am deeply proud of all the projects we have accomplished together.

In 2015, Ksenia conducted my interview for a teaching position in the toddler class at Sunrise Montessori School. It was an exceptionally comfortable experience, where I felt professionalism and genuine interest in my personality.

Working as a teacher in a toddler classroom for many years I got both methodological and personal support from Ksenia who was responsible for the 0-3 program. Our meetings were opportunities for inspiration, helping me discover hidden resources and feel part of a supportive community.

What has always impressed me about Ksenia is her ability to apply Montessori principles not only to children but also to adults – parents and colleagues. Being around her naturally boosts one's confidence in their own potential.

Initially, while I really loved working with children, interacting with adults felt like an obligation. However, working as an assistant in Ksenia's Parent-Infant class was a turning point. Her empathetic approach to every mom, her care and attention became a lasting example for me. This experience completely changed my perspective on parent engagement, which has now become my favorite area of development.

Another outstanding quality of Ksenia's is her ability to build community. The parent community, events, and all initiatives organized for parents at our kindergarten and school bear the mark of her significant contribution.

Even after our time at the same organization, Ksenia and I continued to collaborate on various parent-focused projects such as Sunrise Family Care where we developed the products to support parents in their parenting journey –

parent community, seminars, consultations, base of knowledge about child development and applying Montessori principles at home. These projects have always been a source of great joy and pride for me.

I am truly grateful for all I have learned from Ksenia and delighted for those who have the opportunity to learn from her in the future.
